

# WHAT IS the risk/return profile of your portfolio?

When evaluating the performance of your investment portfolio, it's important to consider both risk and return. In this Fact sheet, we present insights from our study of 20 years of financial performance (from 1 January 2005 to 31 December 2024) to help you to understand the risk/return profiles of five commonly used diversified portfolios. However, please keep in mind that while past performance can provide valuable insights, it isn't a reliable indicator of future performance.

## Defensive portfolio

### COMPOSITION

Cash	30%
Fixed interest	51%
Property & infrastructure	3%
Int. equities	8%
Aust. equities	8%
